## Front End Developer

### ABOUT ME

I'm a third year Software Engineering student at İstinye University and a passionate front end developer with full stack capabilities. I specialize in building modern, responsive, and user-centric web applications using the best tools and tech over the past two years, I've developed and deployed a wide range of personal and team projects that showcase strong technical skills, attention to design, and performance optimization. I'm a fast learner who thrives in collaborative environments and enjoys turning ideas into polished digital products.
